This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

HISTORICAL STATEMENT

The Johns Hopkins University was founded by a merchant of Baltimore, Johns Hopkins (1795-1873), who bequeathed the greater part of his estate for the establishment of a university and a hospital. The University was incorporated August 24, 1867, the certificate of incorporation reading as follows:

CERTIFICATE OF INCORPORATION

Know all men by these presents, that we, Thomas M. Smith, William Hopkins, Lewis N. Hopkins, John W. Garrett, Alan P. Smith, John Fonerden, George W. Dobbin, George M. Gill, Andrew Sterett Ridgely, Thomas Donaldson, James A. L. McClure and Charles J. M. Gwinn, being citizens of the United States of America, and of the State of Maryland, and being desirous to form a corporation for the purpose of organizing a "University" for the promotion of education in the State of Maryland, do hereby declare and certify that we do, by this statement of writing, and by virtue of and under the provisions of an Act of the General Assembly of Maryland, passed at the January session thereof in the year eighteen hundred and sixty-seven, and being the Act of eighteen hundred and sixty-seven, chapter three hundred and seventy-nine, form a corporation, under the name of "The Johns Hopkins University," for the promotion of education in the State of Maryland, which shall be governed and controlled by twelve Trustees, who shall manage the concerns thereof, and which said twelve Trustees shall be Francis T. The following amendments to the charter have been enacted by the State Legislature:

I

AN ACT to grant certain additional powers to "The Johns Hopkins University," a corporation incorporated under the General Laws of Maryland.

Section 1. Be it enacted by the General Assembly of Maryland, That "The Johns Hopkins University," a corporation duly incorporated by certificate recorded in the office of the Clerk of the Circuit Court for Baltimore County, shall have power to establish branches of the said University in the City of Baltimore, to hold, or to purchase and hold, all property in said City needed for the successful conducting of the branches of the said University in said City, and to keep and maintain a principal office in said City for the conduct of the business of the said University.

Section 2. And be it enacted, That the said "The Johns Hopkins University" shall have power to admit students of the said University, who shall merit the distinction, to the office and profession of Surgeon, or to the degree of Doctor of Medicine, or of Doctor of Laws, or of Bachelor or Master of Arts; to grant to students in said University such certificates of proficiency and attainments in any special study as the said University may see

proper to confer; and to grant the honorary degrees of Doctor of Laws, Doctor of Medicine, and Master of Arts, or such other degrees as may be proper, to any person who may merit such distinction, whether such person be a student of said University or not.

Section 3. And be it enacted, That this Act shall take effect from its passage.

Approved March 22, 1876.

II

AN ACT to authorize the Trustees of the Johns Hopkins University, a corporation incorporated under the General Laws of Maryland, to make and constitute the President for the time being of the University and each of his successors in said office, during their respective terms thereof, a member ex-officio of the Board of Trustees of the Johns Hopkins University, in addition to the number of twelve Trustees of said University now authorized by law.

Section 1. Be it enacted by the General Assembly of Maryland, That the Trustees of the Johns Hopkins University, a corporation duly incorporated by certificate under the General Laws of Maryland, be and they are hereby authorized and empowered to make and constitute the President for the time being of the Johns Hopkins University and each of his successors in said office, during their respective terms thereof, a member ex-officio of said Board of Trustees in addition to the number of twelve Trustees of said University now authorized by law.

Section 2. And be it enacted that this Act shall take effect from the date of its passage.

Approved April 4, 1892.

As stated in the foregoing certificate, the corporate name of the institution is "The Johns Hopkins University."

The Board of Trustees organized June 13, 1870, and held their first business meeting February 6, 1874. The founder died December 24, 1873, in the seventy-ninth year of his age—having been born May 19, 1795. The election of a President of the University took place December 30, 1874, the choice falling upon Daniel Coit Gilman, at that time President of the University of California. President Gilman was inaugurated February 22, 1876, and instruction began October 3, following. The Johns Hopkins Hospital was dedicated May 7, 1889, and this paved the way for the opening of the medical school of the University four years later (October 1, 1893).

President Gilman resigned his office February 22, 1901,

after a service of twenty-five years, and he was succeeded by Dr. Ira Remsen, Professor of Chemistry in the University, whose election took place June 3, 1901. On the twenty-first and twenty-second of February, 1902, the University celebrated the completion of twenty-five years of work, and President Remsen was inaugurated.

On the 10th of April, 1912, Dr. Remsen offered his resignation of the office of President, and this was, with reluctance, accepted by the Board of Trustees. He consented, however, to discharge the duties of the office until his successor should be chosen; but it seemed to him best, in the middle of the following year, partly because of an ailment requiring a surgical operation, to request relief. The Trustees then appointed an Administrative Committee of the Faculty, to whom, for the time being, was entrusted the performance of the duties of the presidential office. The committee was composed of Professor William H. Welch, Chairman; Professors Joseph S. Ames, William B. Clark, Basil L. Gildersleeve, Edward H. Griffin, William H. Howell, and Westel W. Willoughby,—Dr. Griffin acting as Executive Secretary.

The third President of the University is Frank Johnson Goodnow, LL. D., who was elected by the Trustees February 22, 1914. Dr. Goodnow was a member of the Faculty of Columbia University from 1883 to 1914, and spent the year 1913-14 in China as constitutional adviser to the Chinese Government. He assumed his official duties as President October 1, 1914.

The work of the University began in two houses at the corner of Howard and Little Ross streets, in Hopkins Hall and a chemical laboratory on Little Ross street—the last two buildings having been erected by the Trustees. As the need arose, other buildings were constructed—including a considerable addition to the chemical laboratory, a biological laboratory, a physical laboratory, a gymnasium, a home for the Young Men's Christian Association (the gift of Mr. Eugene Levering), and finally McCoy Hall, a large central building containing offices of administration, assembly room, the gen-

eral library, and numerous smaller rooms for seminaries, department libraries, classes in languages, history, etc. These buildings, excepting the chemical laboratory, were vacated in the summer of 1916. The medical school is housed in four buildings in another section of the city, adjacent to the Johns Hopkins Hospital, with which it is closely associated in accordance with the expressed wish of the founder.

The Hospital occupies a commanding site facing North Broadway. The buildings include a central structure chiefly devoted to administration, large private wards, a considerable number of separate buildings containing the public wards, a large dispensary building, a surgical building and amphitheatre, a pathological institute, and a nurses' home. The Harriet Lane Home for Invalid Children, the Phipps Psychiatric Clinic, the Phipps Dispensary for the Treatment of Tuberculosis, and the Brady Urological Clinic are important adjuncts to the Hospital and are situated within its grounds.

In 1902 it was announced that a suburban site had been given to the University by Messrs. William Wyman, William Keyser, Francis M. Jencks, Julian LeRoy White, and William H. Buckler, of Baltimore, and Samuel Keyser, of New York. This site comprised originally one hundred and seventy-six acres of land within the city limits, about two miles directly north of the Washington Monument. Fifty-six acres have been deeded to the city for a public park. The hope was expressed by the donors that the sum of one million dollars would be contributed by the friends of the University within a certain time, to be added to the permanent endowment funds of the University. This hope was realized July 1, 1902. The development of the new site was begun and has continued as the necessary funds have been received. A botanical laboratory and a greenhouse were erected for immediate use, and a fine athletic field was provided. A general scheme of arrangement of the future buildings was adopted, as the result of a competition by selected architects, and plans were ordered for the more important structures. The removal to the new site was accomplished during the summer of 1916.

and instruction in all departments of the University, excepting graduate Chemistry, is now given in the new buildings. Gilman Hall contains the general library and the non-laboratory departments, as well as the offices of administration. Plans for the physical and chemical laboratories are completed, and bids on the chemical laboratory can be invited and accepted as soon as funds for its erection are available. Plans for the geological laboratory are progressing.

Temporary quarters are provided for three of the laboratory subjects pending the erection of the respective laboratories. Zoology and Botany are housed in the basement of the Academic Building; Physics occupies part of two floors in the Mechanical and Electrical Engineering Building; and Geology is quartered in the Civil Engineering Building.

The original endowment of the University amounted to somewhat over $3,000,000. This has been supplemented by several gifts, including the Endowment Fund of 1902 ($1,000,000), the John W. McCoy Fund ($500,000), the Women's Medical School Fund ($100,000), the Mary Elizabeth Garrett Fund ($307,000), the Adoniram J. Robinson Fund ($42,000), the Herbert B. Adams Fund ($42,000), the Johnston Scholarship Fund ($90,000), the Donovan Fund ($100,000), the H. Willis Baxley Fund ($50,000), the Charles L. Marburg Fund ($50,000), the Herter Lectureship Fund ($25,000), and several others.

The Endowment and Extension Fund of 1910 was started in June, 1909, when the General Education Board offered to contribute to the University the sum of $250,000 towards the endowment, provided the institution should secure, on or before December 31, 1910, a supplemental sum of $750,000 in cash or pledges. Under the terms of this offer one-half of the million dollars thus acquired must be added to the permanent endowment, the remainder being used in the construction of buildings. A General Committee was organized in the summer of 1910, and, aided by an Alumni Committee, a Citizens' Committee, and a Ladies' Committee, secured by

the end of the year pledges for $940,000, more than sufficient to meet the condition imposed by the General Education Board; of the total amount subscribed, $1,168,000 has so far been paid.

By Act of the Legislature of Maryland, at its session of 1912, the sum of $600,000 was appropriated for the purpose of constructing and equipping buildings for a school of technology as a department of the University, with an annual appropriation of $50,000 for maintenance. For this department there have been erected buildings for Civil, Mechanical, and Electrical Engineering, and a power house from which are supplied heat, light, and power for all the University buildings at Homewood.

In July, 1914, the General Education Board deposited with the University securities valued at approximately $1,273,000, to establish the "William H. Welch Endowment for Clinical Education and Research." The purpose of this endowment is to aid in reorganizing clinical teaching in the departments of medicine, surgery, and pediatrics, so that the entire time of the teaching staff can be devoted to the work, precisely as in the departments teaching the underlying sciences. The placing of these clinical departments upon the full University basis constitutes one of the most important advances in the teaching of clinical medicine, and is expected to have far-reaching effects.

The income-bearing funds have a "book value" of $6,551,000; the real estate and buildings, books, scientific apparatus, and general equipment are valued at $3,504,000. The assets of the University have thus a total value of about $10,055,000.

The Legislature has granted an annual appropriation of $15,000 for general purposes for 1917 and for 1918.

GOVERNMENT OF THE UNIVERSITY

FOR THE YEAR 1917-18

TRUSTEES

The Trustees are the ultimate source of authority in all matters pertaining to the University. They act collectively, through the standing committees named on page 10 and through the President of the University.

PRESIDENT

The duties of this office were thus defined by the Trustees, September 14, 1876:

The President of the University is the authorized means of communication between the Board and the various officers of instruction and administration employed in the University; it shall be his duty to consult with the Professors in respect to the development of their various departments and the general interests of the University; to determine the appropriate duties of the Associates and Fellows; and to exercise such superintendence over the buildings, apparatus, books and other property as will insure their protection and appropriate use. In respect to these matters and all others which concern the welfare of the University, he shall consult frequently with the Executive Committee, and he shall attend the meetings of the Board of Trustees. Purchases, alterations, repairs, and other incidental expenses must not be ordered by any of the officers of the University without his previous assent or the expressed authority of the Board.

By resolution of the Trustees, May 2, 1892, the President of the University was constituted a member *ex officio* of the Board, and also *ex officio* a member of the Executive Committee.

ACADEMIC COUNCIL

F. J. Goodnow (*Pres.*)	Maurice Bloomfield	W. W. Willoughby
